ADMISSION FALL 2024 Table of available programs

THE ROUND SYSTEM

What is the Round System?

The Round System helps maximize the number of applicants admitted to cégep. There are three consecutive rounds for Fall semester applications.

A "round" is a portion of an application period during which:

- You can submit your application for the first time (at any round)
- You can change your choice and try again if you were refused at a previous round

With SRAM, you must choose a single program in a single cégep. If you are refused, you can take part in the following round for the same semester by making a new choice out of the remaining spaces. You will not have to pay additional application fees.

Available spaces

In Round 1 of the Fall semester, the maximum number of spaces is open to applicants.

After Round 1 admissions, the remaining spaces are open in the next round. Since spaces are filled at each round, there are fewer spaces available as the application process moves forward. A Table of Available Spaces is published for Rounds 2 and 3. It is important to refer to these Tables prior to submitting a new choice.

If you are currently enrolled in school, SRAM highly encourages you to meet with your guidance counsellor to help prepare your college application.

Acceptance

Admission is final. Once you are accepted, you may no longer take part in the following rounds.

Refusal

If you are refused, you will be invited to take part in the next round. There are no additional fees. You just have to log on to your file at admission.sram.qc.ca/my-file and modify your choice before the next deadline.

Admission answers

Admission answers are posted on your online file at admission.sram.qc.ca/my-file on the date listed in the deadlines and important dates of that round:

- Acceptance letters are sent directly from the cégeps. These letters include all the information needed to confirm your acceptance and your registration.
- Refusal letters are posted directly in the applicant's online file. It should be read carefully as it includes explanations about the refusal, instructions to pursue the application and cegep contact information.

Don't wait until the last minute!

Submitting your application as soon as possible will give you plenty of time to complete your file before the deadline. Incomplete files are not sent out to cégeps for evaluation. So avoid last minute stress and complete admission file as soon as possible.

If you are hesitating between two programs or two cégeps, you can still start to fill out your application right away. As long as your application fees are paid, you can change your choice of program and cégep as many times as you wish right until the Round deadline. Your last registered choice at the time of the deadline is the one that will be considered.

Why only one choice per round?

With the Round System, accepted applicants only reserve a single spot in a cégep. Cégeps therefore have a better grasp of the number of students they can accept and that will complete their registration with the cégep. As a result, SRAM's Round System makes it possible for a greater number of applicants to be accepted. In the Fall of 2023, 95,6% of applicants who followed through on all the rounds they were invited to were accepted. **Tip:** You uplaoded your documents in your online file? Wait 48 hours and follow-check the status of your application at **admission.sram.qc.ca/my-file** to be sure your documents are valid and your file is complete.

A few telling statistics

Among the SRAM applicants to the Fall 2023 semester:

- 86.5% were accepted
- 95.6% applicants who followed through on all the rounds they were invited to were accepted
- 93.4 % of applicants were accepted into their first choice program

There are, however, a certain number of programs with limited spaces due to one or many of the following reasons: limited number of laboratories, limited internships opportunities, and limited openings in the employment market.
